

# Chapter 2

## Angles Around Us

---

1. Mark all the right angles in the diagrams below with a box:

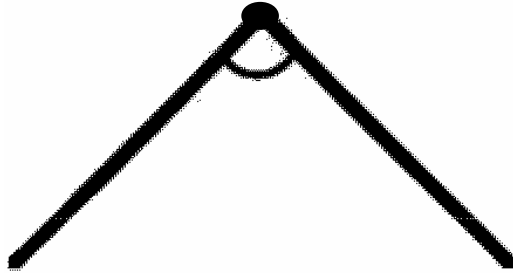

(6)

2. Say whether each angle is acute, obtuse, right or straight.

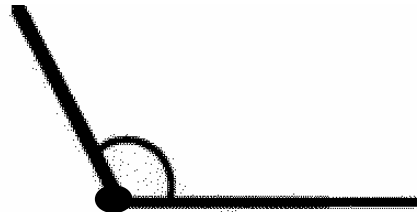

Write your answer next to each angle.

a)

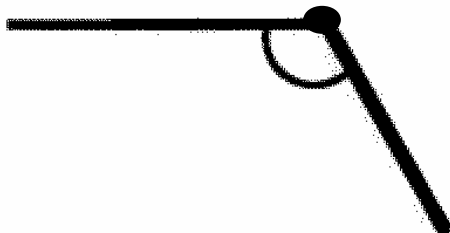

.....

b)

.....

c)

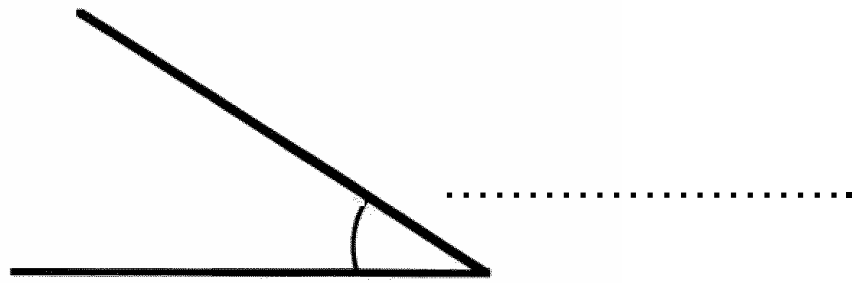

.....

d)

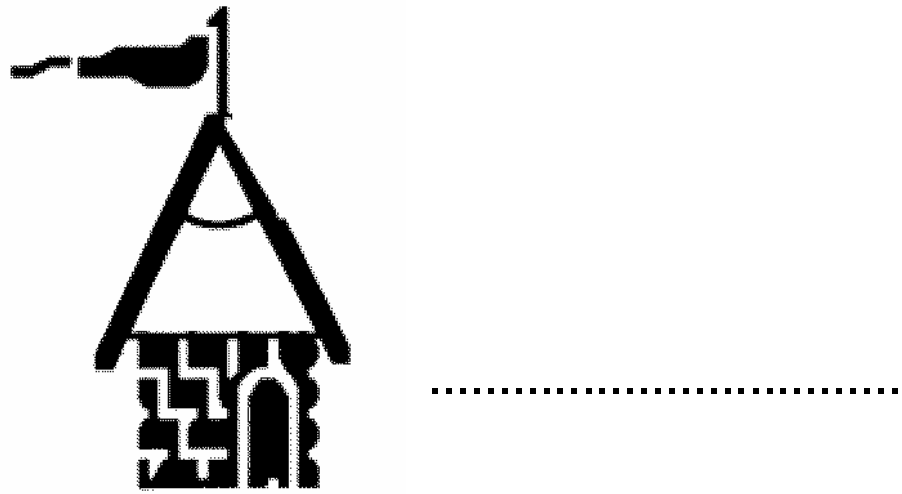

.....

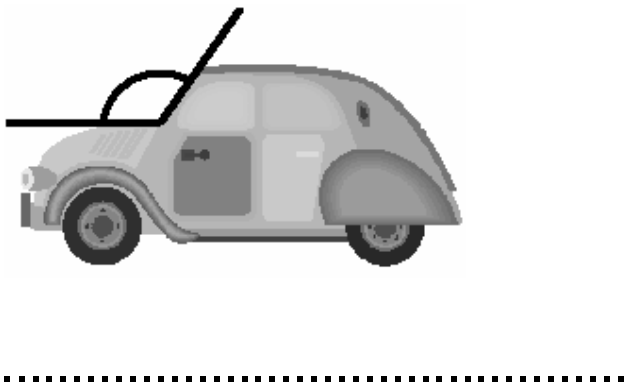

e)

f)

g)

(7)

3. Use the words below to complete these sentences.

right, straight line, complete turn, obtuse, acute, smaller, bigger

a) Ninety degrees make a \_\_\_\_\_ angle.

b) A \_\_\_\_\_ makes  $180^\circ$ .

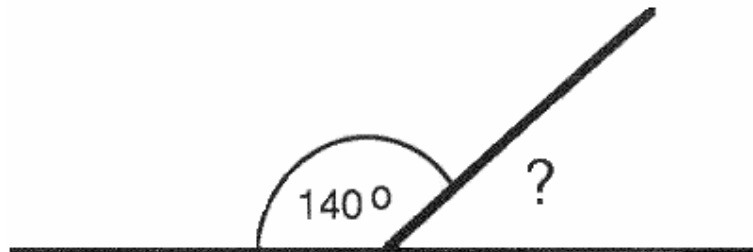

c) There are  $360^\circ$  in a \_\_\_\_\_.

d) An acute angle is \_\_\_\_\_ than a right angle.

e) An \_\_\_\_\_ angle is bigger than a right angle.

(5)

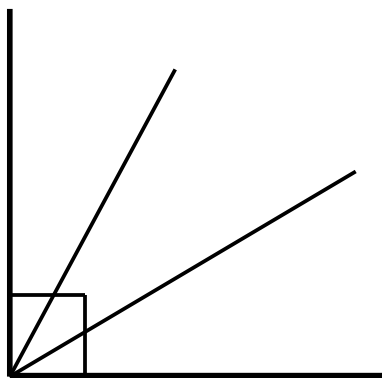

4. How many degrees are there in the missing angle?

(3)

5. This right angle has been divided into three equal angles.

What size is each angle?

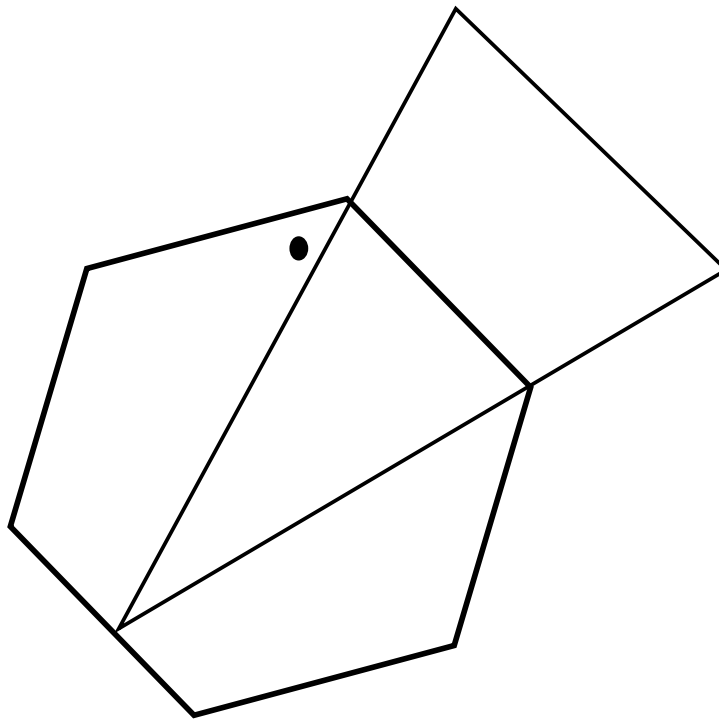

(3)

## 6. Challenge

Find 8 more acute angles.

Mark each one with a dot.

It has been started for you.

Total Found:

(6)
